Perry Ranch Improvement District Update – July 10, 2020

The Cosumnes Community Services District is responsible for providing landscape maintenance services throughout the City of Elk Grove. On June 19, 2019, property owners in Perry Ranch approved the Perry Ranch Improvement District. The benefit assessment levied in this district provides funding for landscape maintenance services in Perry Ranch, here are some examples of your assessment as work!

Irrigation

A malfunctioning controller at Perry Park was replaced to ensure the irrigation system is able to run as scheduled. A broken sprinkler head was also repaired.

Engineered Wood Fiber

Engineered wood fiber (EWF) was installed in the play area at Perry Park. This material ensures the playground is safe for patrons of all abilities.

Street Landscaping

Landscape bark was applied to bare areas along Waterman Rd and Calvine Rd. District staff will also be performing landscape renovations to replace missing or poor performing plants in these areas. This project is scheduled for fall 2020, and will be conducted once planting conditions are optimal.

Pruning

Shrubs at Perry Park, and along Waterman and Calvine Roads were pruned. The trees throughout Perry Ranch are scheduled to be pruned in Fiscal Year 2020 – 2021.

Ongoing Updates

The District will publish regular updates on the Perry Ranch Improvement District webpage (www.yourcsd.com/perryranch) until the park revitalization is complete. Please contact the Park Maintenance Hotline, 916-405-5688, or at hotline@csdparks.com, if you have any questions or concerns.
